Innovation by developing a European Procurer
Networking for security research services

The iProcureNet project develops methods and tools for the procurement of innovation in the security sector.

To share results and exchange with stakeholders, the iProcureNet project organises its 2022 annual conference in Lisbon on 21 and 22 June.

The conference will involve the participation of external experts under the topics "The increasing challenges for the security market in Europe" and "Towards the concretisation of innovative solutions for security forces".

There are no participation fees to attend the workshop. However, places are limited, so registration is required. To register please fill out and submit this form.

The conference will **also be available via streaming** online, however it still requires registration.
